

REPORT OF THE COMMITTEE ON CHRISTIAN EDUCATION

To the One Hundred and Thirty-second Council
of the Diocese of the Northeast and Mid-Atlantic
of the Reformed Episcopal Church

Dear Brethren:

The primary goal of this group is to examine and interact with other members of this committee about educational materials suitable for parishes of this Diocese. It has been a long time since training materials were produced for publication by this Diocese. For the present, the task of examining available educational materials, that would be appropriate and affordable for the parishes in this Diocese, seems a worthy and fitting focus.

This past year, however, was not a productive year. I sold my house, purchased another home in a different town, and was busy with all the related activities of a move. I was not able to investigate materials and to interact, in any significant way, with other committee members. I bear the full responsibility for not fulfilling our mission this past year.

I thank the Rev. Dr. John Simpson, Paul and Tina Luth for sending me materials for my perusal. I was not able to examine them earlier in the year, and therefore did not have time to distribute them to others before this year's Diocesan Council.

I thank all committee members for their willingness to serve. I look forward to getting back on track in the coming year.

Respectfully submitted,

The Very Rev. Eduardo A. Andrade
Chairman
